

# New Construction Vinyl Window Collection

**Beauty and Performance** Designed for Your Homes

The new 1700 and 1900 Series new construction windows offer classically inspired solutions to meet the ever-changing aesthetic, architectural and budgetary needs in new construction.

**Solid vinyl construction with fusion-welded corners** provide added strength, energy efficiency and weather-tight performance.

**Block and tackle balances** stand up to the debris of a construction site.

**Reinforced meeting rail** for superior structural performance.

**Cam-style lock** with adjustable keeper for increased security.

**Sloped sill** for a contemporary look and enhanced water management support.

**Single frame construction** on several combo units reduces potential water entry points. Available in twin and triple single and double-hung, as well as 3-lite sliding units.

**Convenient Egress sizes** in 3050 single-hung, 4040 single-sliding and 3052 double-hung.

**Multiple glass pack options** to meet the thermal and energy-efficiency needs of any region.

**Interior glazed fixed lites** provide convenient access from the inside should the glass need to be replaced.

**Drywall pass-through model** available for convenient higher floor sheet drywall entry point.

**Primed wood jamb extensions** are available to support four exterior wall construction depths and reduce interior trim work. 4-9/16", 6-9/16", 7-1/16" and 7-9/16" options are available.

**Convenient 1/2" or 5/8" drywall return channel** offers an alternative to wood trim and caulking.
